

FAN CATALOGUE 2021

Central Fans – Colasit Ltd

CPV Fan Range – CPV630-CPV1250

The CPV range of fan units are the most efficient we produce, they are fitted with a 6 bladed Backward Curve impeller giving efficiencies of up to 85%, thus giving appreciable power savings with non-overloading power characteristics.

The impellers are CNC machined from Heat Stabilized Polypropylene and balanced to ISO1940/1 - G6.3.

Fan casings are also CNC machined either from Black Polypropylene or PVC/GRP.

As with all our fans the steelworks are galvanised as standard and we only use stainless steel fixings.

Duty ranges from 4000m³/hr - 100,000m³/hr with pressures up to 2500Pa and are available in either direct, v-belt or inverter drive versions.
